The screenshot shows a web browser displaying a PubMed article. The browser's address bar shows the URL: <https://pubmed.ncbi.nlm.nih.gov/35917814/>. The PubMed logo is visible at the top left of the page. The article title is "A retrospective study of clinical and epidemiological characteristics of snakebite in Napo Province, Ecuadorian Amazon". The authors listed are Ricardo S P Patiño, David Salazar-Valenzuela, Alberto A Robles-Loaiza, Paola Santacruz-Ortega, and José R Almeida. The article is from the journal *Trans R Soc Trop Med Hyg*, published in 2023. The abstract is visible, starting with "Background: Snakebite envenoming remains a relevant public health problem in tropical and subtropical countries. In Ecuador, this is particularly true in an area of great diversity like the Amazon region. Nevertheless, there is scarce information about epidemiological and clinical characteristics of these accidents in this area." The page also includes a sidebar with "ACTIONS" (Cite, Collections) and "SHARE" options (Twitter, Facebook, Print). The Windows taskbar at the bottom shows the date as 01/03/2023 and the time as 01:14 p.m.
